New Research

A survey for current and future avodart users for treatment of hair loss. So you've been hearing about it, and you're ready to take the plunge. You've decided you want to be one of the first to use this revolutionary new drug that may completely end all your hair loss woes. Well dammit, tell us about it!

Surely out of our 8,000+ subscribers, a few hundred of you are planning on getting some Avodart just as soon as your Turkey and Stuffing digests. The story of your experience on how you got it, what dose you're taking, what side effects (if any) you've experienced, and more importantly, what kind of results you've seen are going to be immensely significant to our 120,000+ monthly newsletter readers.
