

Dutasteride named Molecule of the Month

Posted by : admin on Oct 09, 2007 - 09:49 AM

Hair Loss News

Dutasteride, a new hair loss treatment is named molecule of the month by prous.com Last month, Dutasteride was officially named Molecule of the Month by www.prous.com... This interesting article was released which reviewed Dutasteride, the long awaited new dual inhibitor by Glaxo Wellcome which many feel will outperform Propecia in fighting hair loss.

Discuss Dutasteride with others in our Antiandrogen Forums.
